

Getting Started with Arduino and Genuino products

WELCOME TO ARDUINO! BEFORE YOU START CONTROLLING THE WORLD AROUND YOU, YOU'LL NEED TO SET UP THE SOFTWARE TO PROGRAM YOUR BOARD

The Arduino Software (IDE) allows you to write programs and upload them to your board. In the [Arduino Software page](#) you will find two options:

1. If you have a reliable Internet connection, you should use the [online IDE](#) (Arduino Web Editor). It will allow you to save your sketches in the cloud, having them available from any device and backed up. You will always have the most up-to-date version of the IDE without the need to install updates or community generated libraries.
2. If you would rather work offline, you should use the latest version of the [desktop IDE](#).

Instructions for our boards:

- [101](#)
- [Due](#)
- [Intel Edison](#)
- [ISP](#)
- [LilyPad, LilyPad Simple and LilyPad SimpleSnap](#)
- [LilyPad USB](#)
- [MEGA2560](#)
- [MKR1000](#)
- [MKR WiFi 1010](#)
- [MKR FOX 1200](#)
- [MKR WAN 1300](#)
- [MKR GSM 1400](#)
- [MKR NB 1500](#)
